MOTHERS READ.

GENTS:—About nine years ago I had a child two years old and almost dead. The doctor I had attending her could not tell what alled her. I asked him if he did not think it was worms. He said no. However, this did not satisfy me, as I felt convinced in my own mind that she had. I obtained a bottle of DR. C. McLANE'S CELEBRATED VEB-MIFUGE (genuine). I gave her a tenspoon-ful in the morning and another at night, after which she passed seventy-two worms and was a well child. Since then I have never been without it in my family. The health of my shidren remained so good that I had noglected watching their actions until about the same sickly appearance that Fanny did nine years ago. So I thought it must be worms, and went to work at once with a bottle of DR. C. McLANE'S VERMIFUGE between four of my children, their ages being as follows: Alice, S years; Charley, 4 years; Emma, 5 years; John, 9 years. Now comes the result: Alloc and Emma came out all right, but Charley passed forty-five and Johnny about sixty worms. The result was so gratifying that I spent two days in showing the wonderful effect of your Vermifuge around Utica, and now have the worms of exhibition in my store.

Yours truly, JOHN PIPER
